Dear Sir/Madam;

Please be advised that as of 28 September 2017, Mr. Olin Thompson Esq. was terminated as the attorney of record for case #1:16-cr-00055-s-PAS.

This action was deemed necessary, not for his lack of legal knowledge, but for his profound deficiency in the current technologies are along with his inability/unwillingness to attempt to understand what is being communicated to him. This deficiency will be insurmountable for Mr. Thompson, and will adversely affect my defence, and ultimately my constitutional interests. Mr. Thompson has also failed to provide informations and materials as requested, both verbally and in writing.

While Mr. Thompson may be an exemplary attorney, with an impeccable record, we have been unable to achieve a repore that would allow us to form a cohesive defence team working towards a common goal. This, I believe will ultimately adversely affect my due process, and may also lend itslef to an ineffective assistance of council claim.

I am respectfully requesting a Pro-Bono/CJA attorney that has at least the basic competancies in the modern technologies are, as well as competency with the current charges I am facing.

Thank you for your time and assistance in this matter.

Sincerly,
Jordan Monroe
